

Sports Event Fundraising Event Notification Form

How to obtain Public Liability Insurance cover

Public Liability Insurance cover – Conditions and Exceptions

Thank you for organising a fundraising event in aid of The Fire Fighters Charity.

To obtain Public Liability Insurance for your fundraising event, the Fundraising Event Notification Form (FEN) must be completed with as much detail as possible including signing the declaration. All events must be comprehensively risk assessed either by completing Section 4 of the FEN or submitting your Fire and Rescue Service event risk assessment. If submitting a separate risk assessment you must complete all other sections of the FEN in full.

If you are Fire Service Personnel, it is your responsibility to seek the appropriate approval within your fire and rescue service for your event to take place.

To enable us to process your form please ensure that it is sent to our Customer Care Team at least **21 days** prior to your event.

Email: customercare@firefighterscharity.org.uk

Post: Customer Care, The Fire Fighters Charity, Level 6, Belvedere House, Basing View, Basingstoke, Hampshire. RG21 4HG

Phone: 01256 366566

The Fire Fighters Charity has in place Public Liability Insurance which provides cover up to £10,000,000 for the Charity. This Public Liability Insurance is extended to provide indemnity to the Organising Committee of any authorised and approved Event that may lead to injury or property damage to Third Parties.

To authorise an event the Charity require a completed Fundraising Event Notification Form (FEN). The Fire Fighters Charity will provide formal notification of the Event approval to the Contact Name contained within the FEN. You should not assume cover is in place until formal notification has been received and any conditions or requirements that may be made of You are accepted and implemented.

It is important that you read and understand any conditions or requirements. Failure to adhere to these may affect the insurance cover that has been arranged.

Many of the fundraising Events organised will involve third party suppliers and external contractors. This can range from catering contractors to hirers of marquees, fairground rides and bouncy castles. All suppliers and contractors must be competent and suitable. You should ensure you are satisfied they have undertaken the necessary risk assessments and have the appropriate controls to manage their contribution to the Event in a safe way.

Where an event involves third party suppliers and external contractors, evidence of Public Liability Insurance (of at least £5m) and confirmation that maintenance and inspection programmes are in place, must be submitted with your completed FEN.

Damage to equipment or hired-in property is not included in The Fire Fighters Charity's Public Liability insurance cover unless you are deemed legally liable for such damage and confirmation of cover has been provided.

It is not intended for the Charity's policy to provide Personal Injury cover for participants who have completed a risk assessment personally and are undertaking an event as an individual. Policy cover does not apply where injury occurs to the individual participant or in respect of any Injury or Property Damage to Third Parties caused. In these circumstances The Fire Fighters Charity would not be held responsible.

If this is the case, the individual involved needs to tick the box in section 1 of this form confirming that they have Personal Liability Insurance. A copy of the Personal Liability Insurance policy does not need to be provided.

Any back-up team supporting such an individual, participating in the event, would be covered by the Charity's insurance for Injury or Property Damage to Third Parties.

A minimum of 50% of the net proceeds raised from the Event for which Public Liability Insurance is being requested, must be donated to The Fire Fighters Charity.

Section 1 Contact

The Contact is the person who is organising the event as p	part of, or on behalf of, a team and to whom all	correspondence regarding the insurance application should be directed.

Section 2 Event Details (continued)

Event Overview Please give a full description of the event including details of ALL activities taking place and equipment being used at the event. Do not include details about safety precautions here – this should be detailed in the next section.

Section 3 Safety Precautions

Please list all safety precautions in place during the event.

Section 4 Risk Assessment

Completing the Risk Assessment Form

To carry out a risk assessment for your fundraising event, you must understand what might cause harm to people and decide whether you are taking reasonable steps to prevent that harm. Once you have decided that, you need to identify and prioritise putting in place, appropriate and sensible control measures.

To complete the Risk Assessment Form for your fundraising event, please follow these steps:

- 1. Identify the hazards at your fundraising event. A hazard is anything that may cause harm, such as chemicals, electricity, climbing a ladder etc.
- 2. Identify the categories of Persons Exposed (PE)

E = Employees, C = Contractors, PU = Public, V = Visitors, YP = Young Persons, SC = Sub-contractors, PW = Pregnant Women, O = Other.

3. Identify the number of Persons Exposed in each category.

N = Number of people (3 = Large numbers of people, 2 = Several people, 1 = Single person)

- 4. Identify how the Persons Exposed may be harmed.
- 5. Evaluate the risks at your fundraising event following the grid below to grade the likelihood of an event and the consequences. A risk is the likelihood, high or low, that somebody could be harmed by the hazards, together with an indication of how serious the consequences could be.

L = Likelihood (3 = Definite, 2 = Probable, 1 = Unlikely)

C = Consequence (3 = Fatal, 2 = Major, 1 = Minor e.g. cut, bumps, bruises)

Ξ	3 Definite	High	High	High
TIKELIH00D	2 Probable	Medium	High Medium	High
DOE!	1 Unlikely	Low	Medium	High
ਰ		1 Minor	2 Major	3 Fatal
		CONSE	UENCE	

- 6. Decide on the appropriate control measures. Control measures include actions that can be taken to reduce or remove the potential of exposure to the hazard.
- 7. Record your findings on your risk assessment form.
- 8. Review and update your risk assessment.
